Aether Refinery

Artifact

If you would get one or more ⚡ *(energy counters)*, you get twice that many ⚡ instead.

{T}: You get ⚡, then you may pay one or more ⚡. If you do, create an X/X black Aetherborn creature token, where X is the amount of ⚡ paid this way.

Avaati Vya's invention stabilized raw aether, but even she didn't know it would also create life.
